Subject Index to Volume 8

Acupuncture analgesia; Part II. Review of current theories, 100
Adenoma, testosterone-secreting adrenal cortical, 171
Addison's disease, early diagnosis of; pigmentation as sole symptom, 189
Amenorrhoea, galactorrhoea and hypogonadism with bromocriptine, treatment of, 262
Amikacin and gentamicin; an *in vitro* comparison using 1000 clinical isolates, 383
Amnesia, transient global, 547
Amyloidosis, primary, successful treatment with intermittent chemotherapy, 176
Anaemia, sideroblastic, and leukaemia in multiple myeloma, 539
unexplained iron-deficiency, evaluation of radiochromium blood loss studies in, 121
Aneurysms, large proximal splenic artery, occurrence in chronic liver disease, 515
Anorexia nervosa, plasma gonadotrophins and LHRH infusions in, 509
Antigens, lymphocyte surface membrane, and receptors, S1, 77
Anti-inflammatory agents, non-steroidal, pharmacokinetics of, S1, 94
Anti-nuclear factor and anti-native DNA antibody tests, S1, 61
Anti-rheumatic drugs, effects on immunological parameters, S1, 109
Aplasia, pure red cell; a report of three cases with studies on circulating toxic factors against erythroid precursors, 75
Arthritics, education programme for, S1, 172
Arthritis, rheumatoid, renal papillary necrosis associated with indomethacin and phenylbutazone treated, 165
Atrioventricular block, intermittent: procainamide administration as a provocative test, 594
Autoimmunity and viral infection, S1, 37

Barbiturate intoxication, acute, electrocardiographic changes associated with hypothermia due to, 86
Benorylate, efficacy of, and clinical pharmacology in patients with rheumatoid arthritis, 22
Blood and blood products, recommendations concerning the indications for the use of, 119
pressure and respiratory function in patients with hypertension, a comparison of metoprolol and propranolol on, 1
sugar control, hormonal profile and HLA patterns in long-term insulin dependent diabetes with and without vascular disease, 465
Brain atrophy and intellectual impairment in heavy drinkers; a clinical, psychometric and computerized tomography study, 147
Breast cancer, human, progesterone and oestrogen receptors in, 630
Bromocriptine, treatment of amenorrhoea, galactorrhoea and hypogonadism with, 262
Bundle branch block and acute myocardial infarction, prognostic value of the HV interval in patients with, 366

Calcification, transient metastatic, in primary hyperparathyroidism, 285
Cancer, gastrointestinal, increased active rosette formation in patients after enzyme treatment of lymphocytes *in vitro*, 610
human breast, progesterone and oestrogen receptors in, 630
Candida albicans, alternative pathway of complement activation by, 620
Cardiac pacemakers, implanted, medtronic model No. 5944, quantitative review of the performance of, 255
Cardiac shunts, left-to-right, in children, radionuclide quantitation of, 500
Carpal tunnel syndrome, diabetes and pyridoxal, 638
Cartilage structure and metabolism and basic changes in degenerative joint disease, S1, 1.
Chemotherapy, intermittent, successful treatment of primary amyloidosis with, 176
Chest radiograph and respiratory function; an epidemiological study of the significance of minor radiographic abnormalities, 7
Chondrocalcinosis and other crystal induced arthropathies, S1, 152
Chromosomal translocation, variant, found in a series of 24 patients with Philadelphia positive chronic granulocytic leukaemia, 288
Circulating immune complexes; current concepts of their pathogenetic role and methods of detection, S1, 68
Clinical disease and social factors; a checklist data base for correlative analysis, 387
Collagen metabolism and breakdown, S1, 7
Colonic and oesophageal disturbance in a patient with multiple endocrine neoplasia, type 2b, 578
Community medicine and the problem family, 267
Complement in the pathogenesis of rheumatic disease, S1, 57
Connective tissue disorders, value of immunofluorescence at the dermal/epidermal junction in connective tissue disorders, S1, 87
Contraceptives, oral, migraine attacks and increased platelet aggregability induced by, 646
Coronary artery disease, severe, exercise testing in the detection of, 361
Cor triatriatum, echocardiographic diagnosis of, 428
Cough, chronic, and haemoptysis due to a nematode, syngamus laryngeus, 168
Coxsackie myocarditis complicating treatment of Hodgkin's lymphoma, 404
Crystal induced arthropathies and chondrocalcinosis, S1, 152
Cytotoxic drugs and recovery after cessation of therapy, testicular damage due to, 250

Daunorubicin, normal infant after treatment of acute myeloid leukaemia in pregnancy with, 431
Death, sudden, in Auckland, 490
Dermatomyositis and polymyositis, S1, 139
Diabetes, long-term insulin dependent, with and without vascular disease, hormonal profile, blood sugar control and HLA patterns in, 465
mellitus and circulating glycosylated haemoglobin A_1, the relationship between the control of, 400
prevalence, high, studies on a Micronesian community with; the effect of westernization on native populations, 141
pyridoxal and carpal tunnel syndrome, 638
Diabetic neuropathy, serum pyridoxal concentrations in patients with, 259

Diarrhoea, correlation with; histopathology in giardiasis, 392
Disopyramide in man, electrophysiology of, 377
Diuretics, different, effects on urinary calcium excretion in a general population, 474
Drinkers, heavy, brain atrophy and intellectual impairment in; a clinical, psychometric and computerized tomography study, 147
Drug interactions in the management of rheumatoid arthritis, S1, 106

Echocardiographic diagnosis of cor triatriatum, 428
Education programme for arthritics, S1, 172
Electrocardiographic changes associated with hypothermia due to acute barbiturate intoxication, 86
Electrophysiology of disopyramide in man, 377
Endocrine investigations, a procedure for comprehensive analysis of neutral urinary steroids in, 63
neoplasia, type 2b, multiple, colonic and oesophageal disturbance in a patient with, 578
Epidemiological study of the significance of minor radiographic abnormalities; respiratory function and the chest radiograph, 7
Epilepsy, myoclonus, in two families; clinical and electrographic studies, 52
refractory, sodium valproate (epilim) in, 46
Exercise testing in the detection of severe coronary artery disease, 361

Fibrosis, retroperitoneal, methysergide and malignant lymphoma, 417
Fluorosis, iatrogenic, 528

Galactorrhoea, hypogonadism and amenorrhoea with bromocriptine, treatment of, 262
Gastrin release in man, effect of mucaine on, 397
Gastrointestinal cancer, increased active rosette formation in patients after enzyme treatment of lymphocytes *in vitro*, 610
Gentamicin and amikacin; an *in vitro* comparison using 1000 clinical isolates, 383
Giardiasis, histopathology in; a correlation with diarrhoea, 392
Glomerulonephritis, membranous, associated with sarcoidosis, 420
Glycosylated haemoglobin A_1, circulating, and the relationship between the control of diabetes mellitus, 400

Haemodialysis, chronic, serum ferritin as an index of body iron stores in patients on, 38
Haemoglobin A_1, circulating glycosylated, and the relationship between the control of diabetes mellitus, 400
Köln, red cell survival in, 84
Haemoptysis and chronic cough due to a nematode, syngamus laryngeus, 168
Heart surgery, open, radionuclide imaging to assess myocardial damage during, 135
Hepatitis, chronic active, association with pyoderma gangrenosum, 656
negative and acute HBsAg-positive, contrasting IgE levels in, 43
Histopathology in giardiasis; a correlation with diarrhoea, 392
HLA antigens in rheumatic diseases, S1, 33
rheumatic disease associations with, S1, 30
the major histocompatibility complex in man, S1, 25
HLA patterns, hormonal profile and blood sugar control in long-term insulin dependent diabetes with and without vascular disease, 465
Hodgkin's lymphoma, coxsackie myocarditis complicating treatment of Hodgkin's lymphoma, 404
Hormonal profile, blood sugar control and HLA patterns in long-term insulin dependent diabetes with and without vascular disease, 465
Hyperparathyroidism, primary, transient metastatic calcification in, 285
Hypertension, a comparison of metoprolol and propranolol on blood pressure and respiratory function in patients with, 1
chronic thromboembolic pulmonary, following ventriculo-atrial shunting, 426
due to 17α-hydroxylase deficiency, 295
portal, repeated shunt surgery in a patient with, 413
resistant, bioavailability, drug plasma levels, plasma renin and catecholamines in acute and chronic treatment of; labetalol, 602
Hyperthyroidism, effect of surgical stress on serum thyroid hormones in, 131
Hyperuricaemia, acquired causes of, S1, 149
Hypogonadism, amenorrhoea and galactorrhoea with bromocriptine, treatment of, 262
Hypothermia, electrocardiographic changes associated with, due to acute barbiturate intoxication, 86

Iatrogenic fluorosis, 528
Immune disorders and malignant paraproteinaemia, experience with large volume plasmapheresis in, 154
Immunofluorescence at the dermal/epidermal junction in connective tissue disorders, S1, 87
Immunoglobulin deposition in the kidney in pre-eclampsia; its significance, 408
M, primary selective deficiency of, 436
Immunopathology, contribution to the diagnosis and classification of systemic lupus erythematosus; relationship between serum anti-DNA, complement and renal biopsy changes, 29
Indomethacin and phenylbutazone treated rheumatoid arthritis, renal papillary necrosis associated with, 165
Inflammation, some chemical aspects of, S1, 89
Iron-deficiency, unexplained, evaluation of radiochromium blood loss studies in, 121
Irradiation, neck, toxic autonomous thyroid nodule following, 521

Jaundice in multiple myeloma; the role of oxymetholone, 14
non-invasive method of choice for the differential diagnosis of; ultrasound tomography of the liver, 615

Kidney in pre-eclampsia, immunoglobulin deposition in, 408

Labetalol; bioavailability, drug plasma levels, plasma renin and catecholamines in acute and chronic treatment of resistant hypertension, 602
Lactic acidosis, metformin associated, 281
Leukaemia, acute myeloid, in pregnancy with daunorubicin, normal infant after treatment of, 431
and sideroblastic anaemia in multiple myeloma, 539
B cell, distinguished from chronic lymphocytic leukaemia by surface markers, 532
myeloid, Ph^1-positive chronic, lymphoblastic transformation of; therapeutic implications and relevance to haemopoietic stem cell theory, 439

Philadelphia positive chronic granulocytic, a variant chromosomal translocation found in a series of 24 patients with, 288
LHRH infusions and plasma gonadotrophins in anorexia nervosa, 509
Lithium-carbimazole, low dose, in the treatment of thyrotoxicosis, 628
Liver disease, chronic, occurrence of large proximal splenic artery aneurysms in, 515
ultrasound tomography of: non-invasive method of choice for the differential diagnosis of jaundice, 615
Lown-Ganong-Levine and sick sinus syndromes, association of, 276
Lymphoblastic transformation of Ph[1]-positive chronic myeloid leukaemia; therapeutic implications and relevance to haemopoietic stem cell theory, 439
Lymphocyte surface membrane antigens and receptors, S1, 77
Lymphocytotoxic antibodies in disease, S1, 81
Lymphoma, malignant, retroperitoneal fibrosis and methysergide, 417
Lysosomal enzymes in joint disease, S1, 12

Measurement in rheumatoid arthritis, S1, 114
Medical, general, and specialist units in a teaching hospital, role of, evaluation and peer review, 337
Membrane structure, aspects of; updated for the clinician, 89
Membranous glomerulonephritis associated with sarcoidosis, 420
Mentally retarded, prevalence of HBeAg and anti-HBe in an institution for, 471
Metastatic calcification, transient, in primary hyperparathyroidism, 285
Metformin associated lactic acidosis, 281
Methysergide, retroperitoneal fibrosis and malignant lymphoma, 417
Metoprolol and propranolol on blood pressure and respiratory function in patients with; a comparison of, 1
Migraine, a controlled trial of cervical manipulation for, 589
attacks and increased platelet aggregability induced by oral contraceptives, 646
Mitral valve disease, thromboembolic complications of, 372
Mixed connective tissue disease, S1, 130
Mucaine, effect on gastrin release in man, 397
Multiple myeloma, jaundice in; the role of oxymetholone, 14
sideroblastic anaemia and leukaemia in, 539
Myeloid leukaemia, acute, in pregnancy with daunorubicin, normal infant after treatment of, 431
Ph[1]-positive chronic, lymphoblastic transformation of; therapeutic implications and relevance to haemopoietic stem cell theory, 439
Myeloma, multiple, sideroblastic anaemia and leukaemia in, 539
Myeloproliferative syndrome, some uses of the continuous flow blood separator in, 433
Myocardial damage during open heart surgery, radionuclide imaging to assess, 135
infarction, acute, and bundle branch block, prognostic value of the HV interval in patients with, 366
infarction, definite, in Auckland, 479
Myocarditis, coxsackie, complicating treatment of Hodgkin's lymphoma, 404
Myxoedema, pretibial; a clinical and pathological study, 60

Necrosis, renal papillary, associated with indomethacin and phenylbutazone treated rheumatoid arthritis, 165
Nephropathy, concomitant IgA, and cyclical neutropaenia, 184
Neuropathy, diabetic, serum pyridoxal concentrations in patients with, 259
Neutropaenia, cyclical, and concomitant IgA nephropathy, 184
Non-steroidal anti-inflammatory agents, pharmacokinetics of, S1, 94

Oesophageal and colonic disturbance in a patient with multiple endocrine neoplasia, type 2b, 578
Oestrogen and progesterone receptors in human breast cancer, 630
Open heart surgery, radionuclide imaging to assess myocardial damage during, 135
Oral contraceptives, migraine attacks and increased platelet aggregability induced by, 646
Oxymetholone, role of; jaundice in multiple myeloma, 14

Pacemakers, implanted cardiac, medtronic model No. 5944, quantitative review of the performance of, 255
Paraproteinaemia, malignant, and immune disorders, experience with large volume plasmapheresis in, 154
Pericardium, Whipple's disease involving; pathological confirmation during life, 649
Pharmacology, clinical, and efficacy of benorylate in patients with rheumatoid arthritis, 22
Phenylbutazone and indomethacin treated rheumatoid arthritis, renal papillary necrosis associated with, 165
Physical medicine in rheumatology, S1, 168
Physicians workshop, an evaluation of five years experience with, 191
Plasma gonadotrophins and LHRH infusions in anorexia nervosa, 509
Plasmapheresis, large volume, in malignant paraproteinaemia and immune disorders, experience with, 154
Polymyositis and dermatomyositis, S1, 139
presenting with severe weakness involving only one arm, 544
Portal hypertension, repeated shunt surgery in a patient with, 413
Potassium, compartmental shift of; a result of sympathomimetic overdose, 180
Problem family and community medicine, 267
Procainamide administration as a provocative test: intermittent atrioventricular block, 594
Progesterone and oestrogen receptors in human breast cancer, 630
Propranolol and metoprolol on blood pressure and respiratory function in patients with; a comparison of, 1
Pulmonary hypertension, chronic thromboembolic, following ventriculo-atrial shunting, 426
Pyoderma gangrenosum, association of chronic active hepatitis with, 656
Pyridoxal, diabetes and carpal tunnel syndrome, evaluation of, 121

Radiochromium blood loss studies in unexplained iron-deficiency anaemia, 121
Radionuclide imaging to assess myocardial damage during open heart surgery, 135
quantitation of left-to-right cardiac shunts in children, 500
Raynaud's disease; reduced hand blood flows with normal blood viscosity, 126

Renal papillary necrosis associated with indomethacin and phenylbutazone treated rheumatoid arthritis, 165
Respiratory function and blood pressure in patients with hypertension, a comparison of metoprolol and propranolol on, 1
and the chest radiograph; an epidemiological study of the significance of minor radiographic abnormalities, 7
Retroperitoneal fibrosis, methysergide and malignant lymphoma, 417
Rheumatic disease associations with HLA antigens, S1, 30
complement in the pathogenesis of, S1, 57
Rheumatoid arthritis; a dissertation on its pathogenesis and future directions for research, S1, 44
clinical pharmacology and efficacy of benorylate in patients with, 22
drug treatment of, S1, 101
measurement, S1, 114
renal papillary necrosis associated with indomethacin and phenylbutazone treated, 165
viral arthritis and the possible role of viruses in, S1, 40
Rheumatoid factors, clinical and pathogenetic significance of, S1, 51
Rheumatology, physical medicine in, S1, 168
Rosette formation, increased active, in patients with gastrointestinal cancer after enzyme treatment of lymphocytes *in vitro*, 610

Sarcoidosis, membranous glomerulonephritis associated with, 420
Scleroderma; pathogenic factors and current management, S1, 143
(progressive systemic sclerosis), some observations on the immunological status in, 622
Serum ferritin as an index of body iron stores in patients on chronic haemodialysis, 38
pyridoxal concentrations in patients with diabetic neuropathy, 259
Shunting, ventriculo-atrial, chronic thromboembolic pulmonary hypertension following, 426
Shunt surgery, repeated, in a patient with portal hypertension, 413
Sick sinus and Lown-Ganong-Levine syndromes, association of, 276
Sideroblastic anaemia and leukaemia in multiple myeloma, 539
Sjögren's syndrome; clinical and laboratory features, S1, 124
SLE; value of immunological tests and aspects of management, S1, 116
Social factors and clinical disease; a checklist data base for correlative analysis, 387
Sodium valproate (epilim) in refractory epilepsy, 46
Specialist and general medical units in a teaching hospital, role of, evaluation and peer review, 337
Statistical analysis of data from the "before-after" type of experiments, 641
Steroids, neutral urinary, a procedure for comprehensive analysis in endocrine investigations, 63
Sudden infant death syndrome, aetiology of; current ideas on breathing and sleep and possible links to deranged thiamine neurochemistry, 322
Surgical stress, effect on serum thyroid hormones in hyperthyroidism, 131
Synovial pathology and electron microscopy, S1, 20
pathophysiology, diagnostic features and their standardisation, S1, 16
Systemic lupus erythematosus, contribution of immunopathology to the diagnosis and classification of; relationship between serum anti-DNA, complement and renal biopsy changes, 29

T lymphocyte deficiency and thyroid immunologic disease; multi-system immunologically mediated disease, 290
Takayasu's arteritis; a study of 45 cases, 68
Teaching hospital, evaluation and peer review of the role of specialist and general medical units in, 337
Testicular damage due to cytotoxic drugs and recovery after cessation of therapy, 250
Testosterone-secreting adrenal cortical adenoma, 171
Thiamine neurochemistry, deranged, current ideas on breathing and sleep and possible links to; aetiology of the sudden infant death syndrome, 322
Thromboembolic complications of mitral valve disease, 372
pulmonary hypertension, chronic, following ventriculo-atrial shunting, 426
Thyroid hormones, serum, in hyperthyroidism, effect of surgical stress on, 131
immunologic disease and T lymphocyte deficiency; multi-system immunologically mediated disease, 290
nodule, toxic autonomous, following neck irradiation, 521
Thyrotoxicosis, low dose lithium-carbimazole in the treatment of, 628
Tumours, solid, a status report on the management of, 300

Ultrasound tomography of the liver; non-invasive method of choice for the differential diagnosis of jaundice, 615
Urinary calcium excretion, effects of different diuretics in a general population, 474
steroids, neutral, a procedure for comprehensive analysis in endocrine investigations, 63

Vascular disease, hormonal profile, blood sugar control and HLA patterns in long-term insulin dependent diabetes with and without, 465
Vasculitides; classification and pathogenesis, S1, 134
Ventriculo-atrial shunting, chronic thromboembolic pulmonary hypertension following, 426
Viral arthritis and the possible role of viruses in rheumatoid arthritis, S1, 40
infection and autoimmunity, S1, 37
Virus-associated malignant diseases in animals and man, 195

Westernization on native populations, effect of; studies on a Micronesian community with a high diabetes prevalence, 141
Whipple's disease involving the pericardium; pathological confirmation during life, 649
Wolff-Parkinson-White syndrome, surgical division of an accessory atrioventricular connection in the posterior septal region following ventricular fibrillation in, 652
